

## **Objects of E-PD Trust – extract from the Articles of Association**

### **Purpose**

To advance education by enabling schools and higher education institutions to build collaborative networks and sustainable partnerships to:

- i) share skills and expertise and enhance the capacity for self-improvement;
- ii) develop a range of events and activities to meet identified needs, including, but without limitation, courses, conferences, workshops and seminars, forums, school action based research and curriculum development projects;
- iii) identify, support and disseminate best leadership and teaching and learning practice;
- iv) undertake research and develop impact evaluation;
- v) promote and further national or regional strategies for the training and development of school leaders and managers, and attract accreditation and funding to support new initiatives; and
- vi) innovate and develop best practice in managing facilities and resources.

### **People who can benefit**

To provide staff engaged in the education sector with a development and support framework for individual, collective and system-wide improvement.

### **Geographical Limits if any**

To work for the direct benefit of education and related institutions in West Sussex and the surrounding area.
